

WALL SAW WSE1620***

CUTTING DEPTHS UP TO 710 MM

Cutting in 16 and 32 A range possible. Light and easily transportable – weighs only 19.5 kg

All functions can be operated by remote control

More power, greater cutting depth, optimal feed control thanks to innovative 2-speed gearbox

- Powerful electric wall saw system for depth of cut up to 710 mm and max. blade diameter from 1600 mm
- 2-stage gearbox on wall saw head for optimal blade speed and torque in the wall saw range from 800 mm - 1600 mm
- Handy and easy to transport since easily detached from main motor
- Modular system: With the main motor, the control unit and the remote controller of the wall saw WSE1620***, 4 applications can be carried out: Wall sawing / rope sawing / circular wire sawing / drilling
- Optimised automatic feed for optimal cutting / power relationship
